Your construction projects are complex and demand the right management expertise. Protect your investment and achieve success by tapping into what Bradley can do for you.

**PUT OUR EXPERTISE TO WORK**

Bradley Construction Management, A Bureau Veritas Company, Delivers Full Life-cycle Construction Management Services to the Renewable Energy Sector

Your Project. Our Expertise.

- Construction management and consultation on more than **11,600 MW** of renewable energy projects—enough to power approximately **2.3 million U.S. homes a year**
- Managed the construction and installation of **2,140** wind turbine generators
- 2020 and 2021 Aggie 100 honoree, which annually recognizes the 100 fastest-growing businesses in the world led by Texas A&M University former students
- Managed **52** projects through the construction phase
- Current and completed renewable energy projects cover Arizona, California, Colorado, Illinois, Iowa, Kansas, Nevada, New Jersey, New York, Ohio, South Dakota, Texas, and Virginia.

Backed by Bureau Veritas’ global network, Bradley is your trusted partner to ensure comprehensive project success.

As our Bradley team continues to provide full lifecycle construction management services to the renewable energy sector, we are able to benefit from Bureau Veritas’ 200-year legacy, global footprint, and market leadership in the power and utility industry. This means we can now deliver more technical knowledge and resources to our renewables clients—and can diversify in new service offerings where our experience will make the most impact.

- **100+** years in the power sector
- **7,500+** Power experts
- **4,000+** Power clients
- **18** Global power centers of expertise
- **50+** More than 50 managers, engineers and subject matter experts

**Current and completed renewable energy projects cover**

- Arizona, California, Colorado, Illinois, Iowa, Kansas, Nevada, New Jersey, New York, Ohio, South Dakota, Texas, and Virginia.
